ECOPULSE - PRICE LIST FOR USERS

ECOPULSE is sold with or without a motor.

We offer our customers two motor and battery combinations that have been rigorously tested, among many others.

In our opinion, they offer the best guarantees of energy efficiency, propulsion performance, and reliability.

However, **ECOPULSE** can be powered by any electric motor from 200 to 2400 W, according to our customers' preferences, whether they prefer to use other motors or those they already own.
